

I would like to register the strongest possible protest against Sinclair Broadcasting's plan to corrupt the principle of broadcast neutrality by compelling their stations to pre-empt network shows in order to play a fake and slanderous "documentary." People have long said that the Republicans will stop at nothing to defeat Kerry, but this is not just the Republican party, this is a company that has been put in charge of maintaining the fairness of the public airways. The FCC needs to enforce the rules of neutrality and the distinction between genuine news and extreme partisan propaganda.

Thank you for your attention.
Rachel Pollack
